About me

Hello! I am Brett and I am a software Developer working on web applications and web infrastructure. I have been developing professionally for 2 years but tinkering since a kid.

I have a bit off a diverse job history. I have had positions in help desk, graphic/web design, web app development and sysadmin/Devops. I can help everywhere in the stack and although, I do think my most strongest skills are in Virtualisation, Networking, Cloud Infrastructure and server administration.
